NEWS & EVENTS

MANY TRAVEL TO FIVE-STAR RESORTS.

A SELECT FEW TRAVEL AROUND IN ONE.

PRESENTING THE NEW T55.

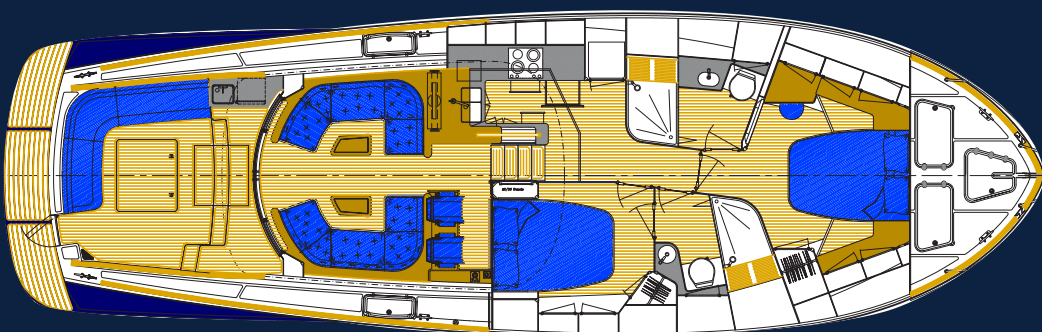

The T55 is more than a gorgeous new motoryacht. She's a very special place that can be moved great distances swiftly and comfortably. From Downeast to Down Island this Hinckley has the speed, the range and the capability to make extended cruises easier and more enjoyable than ever before. And with two beautifully appointed staterooms she offers five star accommodations to owners and guests alike. Whether it's an extended weekend with the grandchildren, entertaining friends or the two of you realizing your long-held cruising plans, the T55 is the most accommodating Hinckley ever.

Custom made, fully powered, frameless sliding side windows and overhead hatches bring in plenty of light and fresh air. You'll love the clean, sophisticated aesthetic as well.

Docking and maneuvering is a breeze with the JetStick. And the T55 features an amazing wireless JetStick technology, giving you complete control from anywhere on deck.

Two large, elegant staterooms offer sumptuous accommodations for all aboard. Each is crafted with our distinctive styling and designed to meet your specific needs.

A constant development of systems, materials and engineering lets us approach each new yacht with new possibilities for performance, functionality and beauty. This evolution of excellence has made the T55 not just the best of her class, but the best of a very special group indeed. She will be our best Hinckley, ever.
